STATEMENT OF PROFIT OR LOSS AND OTHER COMPREHENSIVE INCOME	4
STATEMENT OF FINANCIAL POSITION	5
STATEMENT OF CHANGES IN EQUITY	6
STATEMENT OF CASH FLOWS	7
NOTES TO THE FINANCIAL STATEMENTS	8
DIRECTOR'S DECLARATION	26
INDEPENDENT AUDIT REPORT	27

The directors present their report on the consolidated entity consisting of Revolver Resources Pty Ltd and the entities it controlled at the end of, or during the financial year ended 30 June 2021. Throughout the report, the consolidated entity is referred to as the Group.

Directors

The names of the directors in office at any time during or since the end of the year are:

- Paul McKenna
- Patrick Williams

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Review of Operations

The loss of the Group for the financial year after providing for income tax amount is \$343,921 (2020: \$871,332 loss). A review of operations of the Group during the financial year and the results of those operations found that during the year, the Group continued to engage in its principal activity, the results of which are disclosed in the attached financial statements.

Significant Changes in the State of Affairs

No significant changes in the Group's state of affairs occurred during the financial year.

Principal Activities

The principal activity of the Group during the financial year was the exploration and evaluation of natural resource projects.

No significant change in the nature of these activities occurred during the year.

Events Subsequent to the End of the Reporting Period

Revolver Resources Holdings Ltd has received conditional admission to the ASX and will become the new parent entity of the Group once the listing process has been finalised on or around 23 September 2021. Revolver Resources Holdings Ltd will acquire all of the shares of Revolver Resources Pty Ltd as part of the listing process.

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Likely Developments and Expected Results of Operations

Likely developments in the operations of the Group and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Group.

Environmental Regulation

The Group is subject to environmental regulations in respect of its principal activities. The Group ensures that these regulations are adhered with, and that all services provided are done so in an environmentally responsible manner. The policies adopted by the Group set the objectives for providing services in an environmentally responsible manner, and make the commitment to high standards of environmental performance.

For personal use only

Dividends

No dividends were paid or declared during the financial year.

Options

No options over issued shares or interests in the Group were granted during or since the end of the financial year and there were no options outstanding at the date of this report.

No shares were issued during or since the end of the year as a result of the exercise of an option over unissued shares or interests.

Indemnification of Officers

No indemnities have been given or insurance premiums paid, during or since the end of the financial year, for any person who is or has been an officer or auditor of the Group.

Proceedings on Behalf of the Group

No person has applied for leave of court to bring proceedings on behalf of the Group or intervene in any proceedings to which the Group is a party for the purpose of taking responsibility on behalf of the Group for all or any part of those proceedings.

The Group was not a party to any such proceedings during the year.

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under s 307C of the *Corporations Act 2001* is set out on page 3.

This director's report is signed in accordance with a resolution of the Board of Directors:

Director

Patrick Williams

AUDITOR'S INDEPENDENCE DECLARATION

UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

REVOLVER RESOURCES PTY LTD

I declare that to the best of my knowledge and belief, during the year ended 30 June 2021, there have been:

- i. no contraventions of the auditor's independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

For personal use only

The financial report is the consolidated financial report for the financial year ended 30 June 2021 of the consolidated entity consisting of Revolver Resources Pty Ltd and its related entities ("the Group"). Revolver Resources Pty Ltd is a group limited by shares, incorporated and domiciled in Australia. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial statements were authorised for issue on 17 September 2021 by the directors of the Group.

1. Summary of Significant Accounting Policies

Basis of Preparation

These general purpose consolidated financial statements have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and in compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

The financial statements, except for the cash flow information, have been prepared on an accrual basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

Accounting Policies

(a) Continued Operations and Future Funding

The financial statements have been prepared on a going concern basis which contemplates that the Group will continue to meet its commitments and can therefore continue normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The ability of the Group to settle its liabilities and execute its currently planned exploration and evaluation activities requires the Group to raise additional funds within the next 12 months, and beyond. Because of the nature of its operations the Directors recognise that there is a need on an ongoing basis for the Group to regularly raise additional cash to fund future exploration activity and meet other necessary corporate expenditure. Accordingly, when necessary, the Group investigates various options for raising additional funds which may include but is not limited to an issue of shares, or undertaking further borrowings.

As a result, the Directors have concluded that after taking into account the various funding options available, the Directors have a reasonable expectation that the Group will have adequate resources to fund its future operational requirements and for these reasons they continue to adopt the going concern basis in preparing the financial report.

(b) Principles of Consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the Parent (Revolver Resources Pty Ltd) and all of the subsidiaries (including any structured entities). Subsidiaries are entities the Parent controls. The Parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of the subsidiaries is provided in Note 8.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between Group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed

and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

Equity interests in a subsidiary not attributable, directly or indirectly, to the Group are presented as "non-controlling interests". The Group initially recognises non-controlling interests that are present ownership interests in subsidiaries and are entitled to a proportionate share of the subsidiary's net assets on liquidation at either fair value or at the non-controlling interests' proportionate share of the subsidiary's net assets. Subsequent to initial recognition, non-controlling interests are attributed their share of profit or loss and each component of other comprehensive income. Non-controlling interests are shown separately within the equity section of the statement of financial position and statement of comprehensive income.

(c) Income Tax

The income tax expense/ (income) for the year comprises current income tax expense/(income) and deferred tax expense/(income).

Current income tax expense charged to profit or loss is the tax payable on taxable income for the current year. Current tax liabilities (assets) are measured at the amounts expected to be paid to/(recovered from) the Australian Tax Office (ATO) using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense/(income) is charged or credited directly to equity instead of profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur.

Deferred tax assets and liabilities are offset where:

(a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(d) Plant and Equipment

Each class of plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and Equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present.

The cost of fixed assets constructed within the Group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

All other repairs and maintenance are recognised as expenses in profit or loss during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets, including buildings and capitalised lease assets but excluding freehold land, is depreciated on the straight-line basis over the asset's useful life to the Group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements. Depreciation is recognised in profit or loss.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Plant and Equipment	20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss when the item is derecognised. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

(e) Exploration and Evaluation Expenditure

Exploration and evaluation expenditures incurred are capitalised in respect of each identifiable area of interest. These costs are capitalised to the extent that they are expected to be recovered through the successful development or sale of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. Accumulated costs in relation to an abandoned area are written off in full against profit or loss in the period in which the decision to abandon the area is made.

When development and production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves. A regular review is undertaken in each area of interest to determine the appropriateness of continuing to capitalise costs in relation to that area.

Costs of site restoration are provided for over the life of the project from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with local laws and regulations and clauses of permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted for on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly, the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

(f) Financial Instruments**Initial Recognition and Measurement**

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the Group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain a significant financing component or if the practical expedient was applied as specified in *AASB 15*, paragraph 63.

Classification and Subsequent Measurement**Financial Liabilities**

Financial liabilities are subsequently measured at:

- amortised cost; or
- fair value through profit or loss.

All other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in profit or loss over the relevant period.

The effective interest rate is the internal rate of return of the financial asset or liability, that is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

A financial liability is held for trading if it is:

- incurred for the purpose of repurchasing or repaying in the near term;
- part of a portfolio where there is an actual pattern of short-term profit taking; or
- a derivative financial instrument (except for a derivative that is in a financial guarantee contract or a derivative that is in an effective hedging relationship).

Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

The change in fair value of the financial liability attributable to changes in the issuer's credit risk is taken to other comprehensive income and is not subsequently reclassified to profit or loss. Instead, it is transferred to retained earnings upon derecognition of the financial liability.

If taking the change in credit risk in other comprehensive income enlarges or creates an accounting mismatch, then these gains or losses should be taken to profit or loss rather than other comprehensive income. A financial liability cannot be reclassified.

Financial Assets

Financial assets are subsequently measured at:

- amortised cost;
- fair value through other comprehensive income; or
- fair value through profit or loss

On the basis of the two primary criteria:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets.

A financial asset is subsequently measured at amortised cost if it meets the following conditions:

- the financial asset is managed solely to collect contractual cash flows; and
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates.

By default, all other financial assets that do not meet the conditions of amortised cost and the fair value through other comprehensive income's measurement condition are subsequently measured at fair value through profit or loss.

Equity Instruments

At initial recognition, as long as the equity instrument is not held for trading or is not a contingent consideration recognised by an acquirer in a business combination to which AASB 3 applies, the Group made an irrevocable election to measure any subsequent changes in fair value of the equity instruments in other comprehensive income, while the dividend revenue received on underlying equity instruments investments will still be recognised in profit or loss.

Regular way purchases and sales of financial assets are recognised and derecognised at settlement date in accordance with the Group's accounting policy.

Derecognition

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

Derecognition of Financial Liabilities

A liability is derecognised when it is extinguished (ie when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability, is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Derecognition of Financial Assets

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All the following criteria need to be satisfied for the derecognition of a financial asset:

- the right to receive cash flows from the asset has expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the Group no longer controls the asset (ie it has no practical ability to make unilateral decisions to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of a debt instrument classified as fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity which was elected to be classified under fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Impairment

The Group recognises a loss allowance for expected credit losses on:

- financial assets that are measured at amortised cost or fair value through other comprehensive income;
- lease receivables;
- contract assets (eg amount due from customers under construction contracts);
- loan commitments that are not measured at fair value through profit or loss; and
- financial guarantee contracts that are not measured at fair value through profit or loss.

Loss allowance is not recognised for:

- financial assets measured at fair value through profit or loss; or
- equity instruments measured at fair value through other comprehensive income.

Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

The Group uses the following approach to impairment, as applicable under AASB 9:

- the simplified approach;

Simplified Approach

The simplified approach does not require tracking of changes in credit risk at every reporting period, but instead requires the recognition of lifetime expected credit loss at all times.

This approach is applicable to:

- trade receivables or contract assets that results from transactions that are within the scope of AASB 15: *Revenue from Contracts with Customers*, that contain a significant financing component; and
- lease receivables.

In measuring the expected credit loss, a provision matrix for trade receivables was used taking into consideration various data to get to an expected credit loss (i.e. diversity of its customer base, appropriate groupings of its historical loss experience, etc).

Recognition of Expected Credit Losses in Financial Statements

At each reporting date, the Group recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Assets measured at fair value through other comprehensive income are recognised at fair value with changes in fair value recognised in other comprehensive income. The amount in relation to change in credit risk is transferred from other comprehensive income to profit or loss at every reporting period.

For financial assets that are unrecognised (e.g. loan commitments yet to be drawn, financial guarantees), a provision for loss allowance is created in the statement of financial position to recognise the loss allowance.

(g) Convertible Notes

The convertible notes issued by the group automatically convert to ordinary shares upon Revolver Resources Holdings Ltd receiving conditional acceptance for admission to the ASX. Where the conversion event does not occur within 12 months of the Deed of issue of the notes, the note holder has the option to the note to a debt payable at face value, or convert into shares in the shares at the conversion ratio agreed in the Convertible Note agreement.

The liability component of compound financial instruments is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component

is initially recognised at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component.

Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured.

Interest related to the financial liability is recognised in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognised.

(h) Impairment of Assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include considering external sources of information and internal sources of information, including dividends received from subsidiaries, associates or joint ventures deemed to be out of pre-acquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (eg in accordance with the revaluation model in *AASB 116: Property, Plant and Equipment*). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for goodwill, intangible assets with indefinite lives and intangible assets not yet available for use.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

(i) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of one month or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(j) Trade and Other Receivables

Trade and other receivables include amounts due from customers for services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for expected credit losses.

(k) Government Grants

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs it is compensating.

(l) Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(m) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

(n) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current period.

Where the Group has retrospectively applied an accounting policy, made a retrospective restatement or reclassified items in its financial statements, an additional statement of financial position as at the beginning of the earliest comparative period will be disclosed.

(o) Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

(p) Key Judgement – Exploration Expenditure

As at the date of the financial report, no development activities have commenced. Exploration activities are not yet at a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. Active and significant operations in the areas of interest are continuing.

	2021 \$	2020 \$
B) TIMING IN REVENUE RECOGNITION		
At a point in time	140,001	11

4. INCOME TAX EXPENSE

The prima facie tax on profit from ordinary activities before tax is reconciled to income tax as follows:

Tax payable on (loss)/profit before tax at 30%	(103,176)	(261,400)
Less: Previously unrecognised tax losses	103,176	261,400
PRIMA FACIE INCOME TAX ATTRIBUTABLE TO ENTITY	-	-
INCOME TAX EXPENSE	-	-
WEIGHTED AVERAGE EFFECTIVE TAX RATE	0.00%	0.00%

No deferred tax asset has been recognised as at this time it is not probable that sufficient taxable profits will be available against which a deductible temporary difference can be utilised.

The amount of deductible temporary differences and unused tax losses for which no deferred tax assets have been brought to account:

- Tax losses: operating losses \$4,017,902 (2020: \$3,055,695)
- Tax offsets: \$nil (2020: \$nil)

The benefits of the above unused tax losses will only be realised if the conditions for deductibility set out in Note 1 c) occur. These amounts have no expiry date.

5. CASH AND CASH EQUIVALENTS

CURRENT

Cash at bank	826,073	2,113,438
Cash on hand	1,001	1,001
TOTAL CASH AND CASH EQUIVALENTS	827,074	2,114,439

6. TRADE AND OTHER RECEIVABLES

CURRENT

Rental bonds	-	2,560
Sundry debtors	180,622	-
Net GST receivable	33,980	17,615
TOTAL TRADE AND OTHER RECEIVABLES	214,602	20,175

CREDIT RISK - TRADE AND OTHER RECEIVABLES

In the current year \$180,622 of receivables related to one debtor. Otherwise, the Group has no significant concentration of credit risk with respect to counter parties. The class of assets described as Trade and Other Receivables is considered to be the main source of credit risk related to the Group. All trade and other receivables are within normal credit terms and are therefore not considered past due or impaired.

BALANCE AT REPORTING DATE	371,900,000	371,900,000

Ordinary shares participate in dividends and the proceeds on winding up of the Group in proportion to the number of shares held. At the shareholders' meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

B) CAPITAL MANAGEMENT

Exploration companies such as Revolver Resources Pty Ltd are funded primarily by share capital. The Group's debt and capital comprises its share capital and financial liabilities supported by financial assets.

Management controls the capital of the Group to ensure that it can fund its operations and continue as a going concern. No dividend will be paid while the Group is in exploration stage. There are not externally imposed capital requirements. Other than the use of borrowings in the year there are no changes to the Group's capital management policy.

	2021 \$	2020 \$
--	------------	------------

FINANCIAL RISK MANAGEMENT POLICIES

The Group's financial instruments mainly comprise cash balances, receivables, payables and borrowings. The main purpose of these financial instruments is to provide finance for Group operations.

RISK MANAGEMENT

The Directors have overall responsibility for the establishment and oversight of the Group's risk management framework. The Directors are responsible for developing and monitoring the risk management policies.

SPECIFIC FINANCIAL RISK EXPOSURES AND MANAGEMENT

The main risks the Group is exposed to through its financial instruments are interest rate risk, credit risk and liquidity risk. These risks are managed through monitoring of forecast cash flows, interest rates, economic conditions and ensuring adequate funds are available.

A) INTEREST RATE RISK

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates, arises in relation to the Group's bank balances and borrowings.

The risk is managed through the use of variable and fixed rates.

B) CREDIT RISK

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements.

Credit risk arises from exposures to deposits with financial institutions and sundry receivables.

Credit risk is managed and reviewed regularly by the Directors. The Directors monitor credit risk by actively assessing the rating quality and liquidity of counter parties.

The carrying amount of financial assets recorded in the financial statements represents the Group's maximum exposure to credit risk.

C) LIQUIDITY RISK

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. This risk is managed by ensuring, to the extent possible, that there is sufficient liquidity to meet liabilities when due, without incurring unacceptable losses or risking damage to the Group's reputation.

The Directors manage liquidity risk by sourcing long-term funding primarily from equity sources. In the current year the Group has also used debt. As set out in Note 1, the Group will need to manage its ongoing liquidity to meet planned exploration and corporate requirements.

21. EVENTS AFTER THE REPORTING PERIOD

A) PROPOSED LISTING ON THE ASX

Revolver Resources Holdings Ltd has received a Conditional Admission Letter from the ASX dated 6 September 2021 detailing the conditions of admission to the Official List of ASX.

Revolver Resources Holdings Ltd will become the parent entity of the Group once the listing process has been completed on or around 23 September 2021.

For personal use only

2021

\$

2020

\$

B) COVID-19

In March 2020, the World Health Organisation declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continued to spread throughout Australia and the world. The spread of COVID-19 has caused significant volatility in Australian and international markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on Australian and international economies.

The Group's core business is mineral exploration. To the date of this report the Group has not experienced any significant adverse impact. Government directives and travel restrictions have limited the Group's ability to undertake some exploration activity. The Group has also applied to the Government for a reduction to the amount of annual expenditure required under its exploration tenements.

The Directors are actively monitoring the Group's financial condition and operations. Although the Group cannot estimate the length or gravity of the impacts of the pandemic, if the pandemic continues beyond the short-term or worsens, then this may have an adverse effect on the Group's future operations, results, financial position and liquidity.

No other matters or circumstances have arisen since the end of the reporting period, which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

22. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

There were no contingent liabilities or contingent assets at 30 June 2021 (2020: nil).

23. OPERATING SEGMENTS

The Group operations entirely in the mineral exploration industry, within Australia.

24. SHARE BASED PAYMENTS

There were no share based payment arrangements in existence during the financial year to 30 June 2021, nor in the 2020 year.

25. GROUP DETAILS

The registered office of the Group is:

Level 1
293 Queen Street
BRISBANE QLD 4000

The principal place of business is:

Revolver Resources Pty Ltd
16 Bridge Street
RED HILL QLD 4000

DIRECTORS' DECLARATION

FOR THE YEAR ENDED 30 JUNE 2021

The directors of the Group declare that:

1. The financial statements and notes, as set out on pages 4 to 25, are in accordance with the *Corporations Act 2001* and:
 - (a) comply with Australian Accounting Standards applicable to the Group, which as stated in accounting policy Note 1 to the financial statements, constitutes compliance with International Financial Reporting Standards; and
 - (b) give a true and fair view of the Group's financial position as at 30 June 2021 and of its income statement for the year ended on that date.
2. In the directors' opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

The declaration is made in accordance with the resolution of the Board of Directors.

Director  Dated this 17th Day of September 2021
Patrick Williams

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF REVOLVER RESOURCES PTY LTD

OPINION

We have audited the financial report of Revolver Resources Pty Ltd ("the Company" and its subsidiaries ("the Group")), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

BASIS FOR OPINION

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2021, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE FINANCIAL REPORT

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL REPORT

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:
<http://www.auasb.gov.au/Home.aspx>. This description forms part of our auditor's report.
